*Note: The SEB checked Milestone #3 at the state level, January 12, 2007.*

- ☐ Step 6: Counties set up offices (*Districts and Offices: Pages 12-21*), contests (*Election Set-Up: Pages 19-20*) and candidates for county elections (*Election Set-Up: Pages 24-28*), which include any school board referenda. (*Election Set-Up: Pages 21-22*)

- ☐ Step 8: Self-Providers and Providers for their Relier(s) set up all polling place locations and Polling Place Assignment Plans (PPAPs), if not already set up. (*Polling Place Location(s): Pages 1 and 5*)
- ☐ Step 9: Self-Providers and Providers for their Relier(s) inherit the 2007 Spring Primary Election created by SEB and inherited by the county. - ☐ Step 14: Self-Providers and Providers for the Relier(s) issue Absentee Ballots. Using SVRS to produce absentee ballot labels is optional at this time. If you have not attended formal absentee ballot process training, it is strongly recommended SVRS is not used for the absentee ballots for this election. If you do use SVRS labels, it is important to note that the Absentee Applications must be processed and ballot styles generated before Absentee Ballots are issued.
